

# ENERGY INTEGRATED ROOF

## ADVANTAGES

- ✔ Complete solution to produce and store green energy
- ✔ Roof with integrated solar cells combined with inverter and batteries
- ✔ Fully scalable and modular, adapted to your needs or roof space
- ✔ Easy installation with no extra costs
- ✔ Different panel sizes available from 28 to 165 Wp
- ✔ Durable, flexible and engineered for all-weather conditions
- ✔ Solution suitable for most roof types
- ✔ Suitable for residential and industrial buildings
- ✔ High energy yield in all light conditions due to CIGS technology
- ✔ Durable non-breakable Swiss made solar panels
- ✔ Low weight and built to last
- ✔ Non penetrating installations – no risk of water leakage or roof damage
- ✔ Works on roofs with intermittent sunlight
- ✔ Manufactured in Europe

Energy Integrated Roof Solutions

# ENERGY INTEGRATED ROOF SOLUTIONS

## Why eRocca?

eROCCA Energy Integrated Roof is a combination of two premium solutions, state of art and extremely durable click sheet metal panels produced by one of the largest European complete roofing solutions manufacturer, BRAVO Europa, combined with an innovative thin-film solar technology developed in Switzerland, offering high efficiency and durability.

eROCCA Energy Integrated Roof is suitable for most roof types, can be used for roofs and facades, for residential or industrial buildings and the installation is as easy as the installation of regular metal roofs.

eROCCA Energy Integrated Roof is available as a complete solution to protect your house and produce green energy, combining the roof, solar panels, inverter and batteries to store the energy but also as modular solution where you can purchase the solar roof or the solar panels to add to your existing roof.

High Efficiency Thin Film  
CIGS Technology

Offers complete freedom  
in architectural design,  
either in classic or modern style.

## CONSUMER BENEFITS

COMPLETE SOLUTION

A TRULY RENEWABLE  
ENERGY SOURCE

REDUCE YOUR IMPACT  
ON THE ENVIRONMENT

SIGNIFICANTLY REDUCES  
ENERGY BILLS

AFFORDABLE AND  
EASY TO INSTALL

INCREASED HOME VALUE
